

# PROJECT DEVELOPMENT PHASE

## DELIVERY OF SPRINT - 2

Date	07 November 2022
Team ID	PNT2022TMID00819
Project Name	Global Sales Data Analytics
Team Leader	Nanda Kumar B

## DATA PREPARATION PHASE

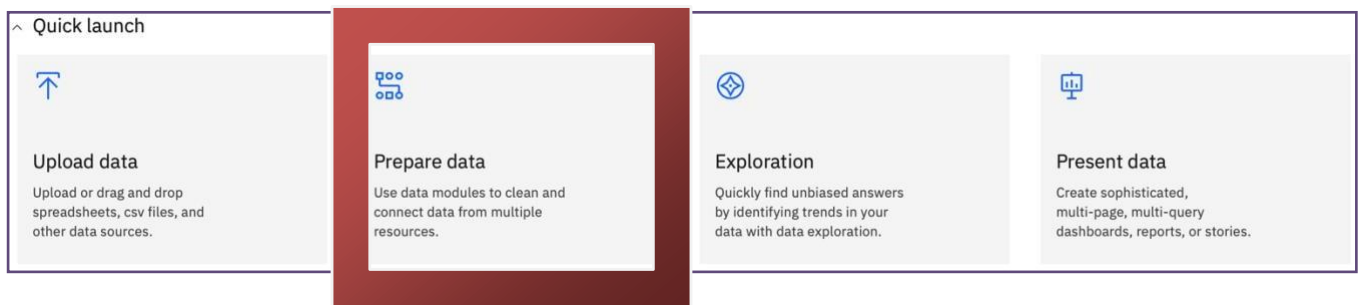

### 1. Open IBM Cognos Dashboard

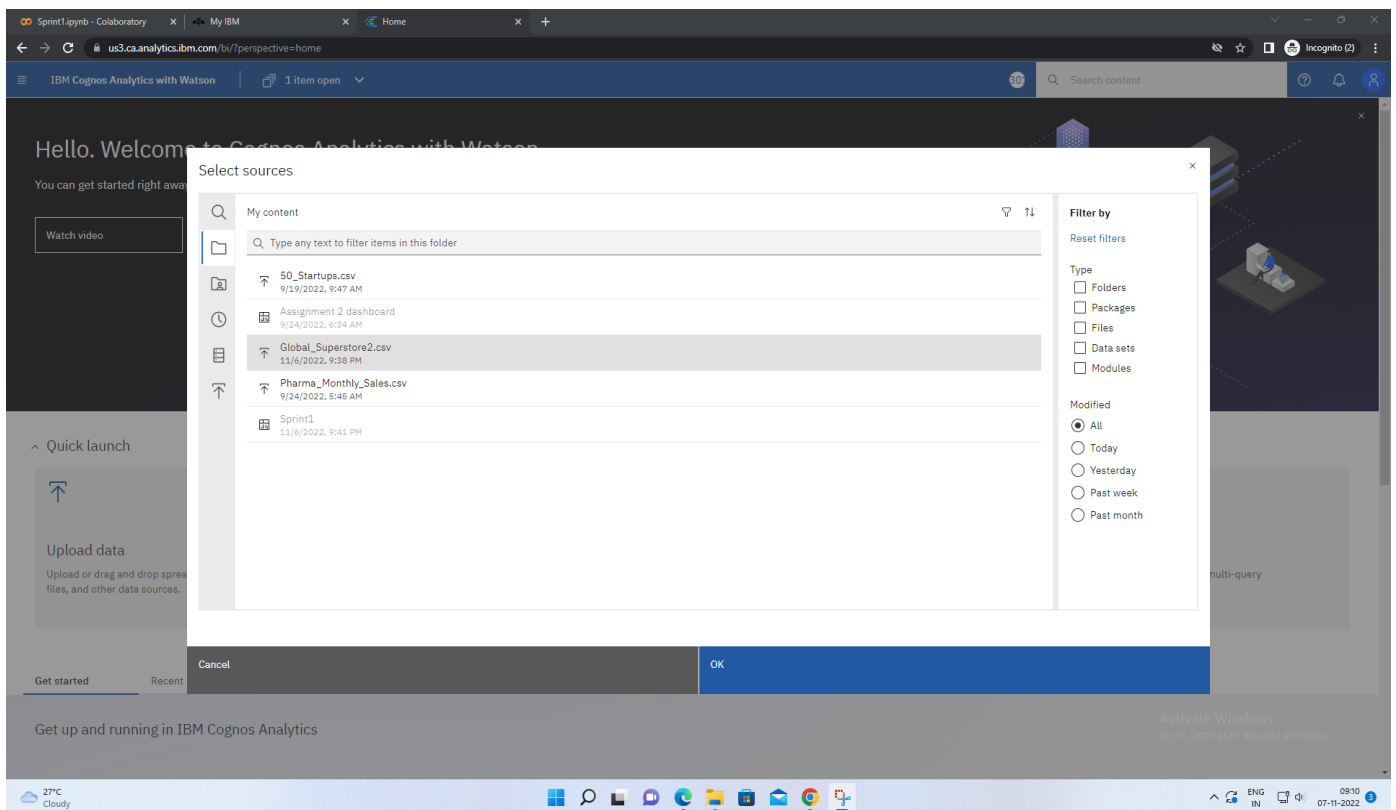

### Preparation phase:

We must prepare the dataset after it has been uploaded to the IBM Cognos dashboard. The process of preparing data involves cleaning it up, eliminating duplicate and null values, and organising it in a way that makes it easy to explore and analyse.

## 2. Click on the Prepare Data option

## 3. Now select the uploaded dataset from the menu

Select the dataset to be cleaned and prepared now.

## 4. Exploring the Data modules

The screenshot shows the IBM Cognos Analytics interface. The left sidebar contains a 'Data module' section with a search bar and a list of navigation paths. The main area displays a 'Preview data' message with a calendar icon and the text: 'To preview data, select a table, a column in a table, or a folder that contains columns.'

Activate Windows  
Go to Settings to activate Windows.

## 5. Understanding the Data

The screenshot shows the IBM Cognos Analytics interface with a data table. The table has columns: Row ID, Order ID, Order Date, Ship Date, Ship Mode, Customer ID, Customer Name, and Segment. The data is as follows:

Row ID	Order ID	Order Date	Ship Date	Ship Mode	Customer ID	Customer Name	Segment
1	CA-2012-124891	2012-07-31	2012-07-31	Same Day	RH-19495	Rick Hansen	Consumer
2	IN-2013-77878	2013-02-05	2013-02-07	Second Class	JR-16210	Justin Ritter	Corporate
3	IN-2013-71249	2013-10-17	2013-10-18	First Class	CR-12730	Craig Reiter	Consumer
4	ES-2013-1579342	2013-01-28	2013-01-30	First Class	KM-16375	Katherine Murray	Home Office
5	SG-2013-4320	2013-11-05	2013-11-06	Same Day	RH-9495	Rick Hansen	Consumer
6	IN-2013-42360	2013-06-28	2013-07-01	Second Class	JM-15655	Jim Mitchum	Corporate
7	IN-2011-81826	2011-11-07	2011-11-09	First Class	TS-21340	Toby Swindell	Consumer
8	IN-2012-86369	2012-04-14	2012-04-18	Standard Class	MB-18085	Mick Brown	Consumer
9	CA-2014-135909	2014-10-14	2014-10-21	Standard Class	JW-15220	Jane Waco	Corporate
10	CA-2012-116638	2012-01-28	2012-01-31	Second Class	JH-15985	Joseph Holt	Consumer
11	CA-2011-102988	2011-04-05	2011-04-09	Second Class	GM-14695	Greg Maxwell	Corporate
12	ID-2012-28402	2012-04-19	2012-04-22	First Class	AJ-10780	Anthony Jacobs	Corporate
13	SA-2011-1830	2011-12-27	2011-12-29	Second Class	MM-7260	Magdelene Morse	Consumer
14	MX-2012-130015	2012-11-13	2012-11-13	Same Day	VF-21715	Vicky Freymann	Home Office
15	IN-2013-73851	2013-06-06	2013-06-08	Second Class	DF-19170	Peter Fuller	Consumer

## 6. Filtering the data

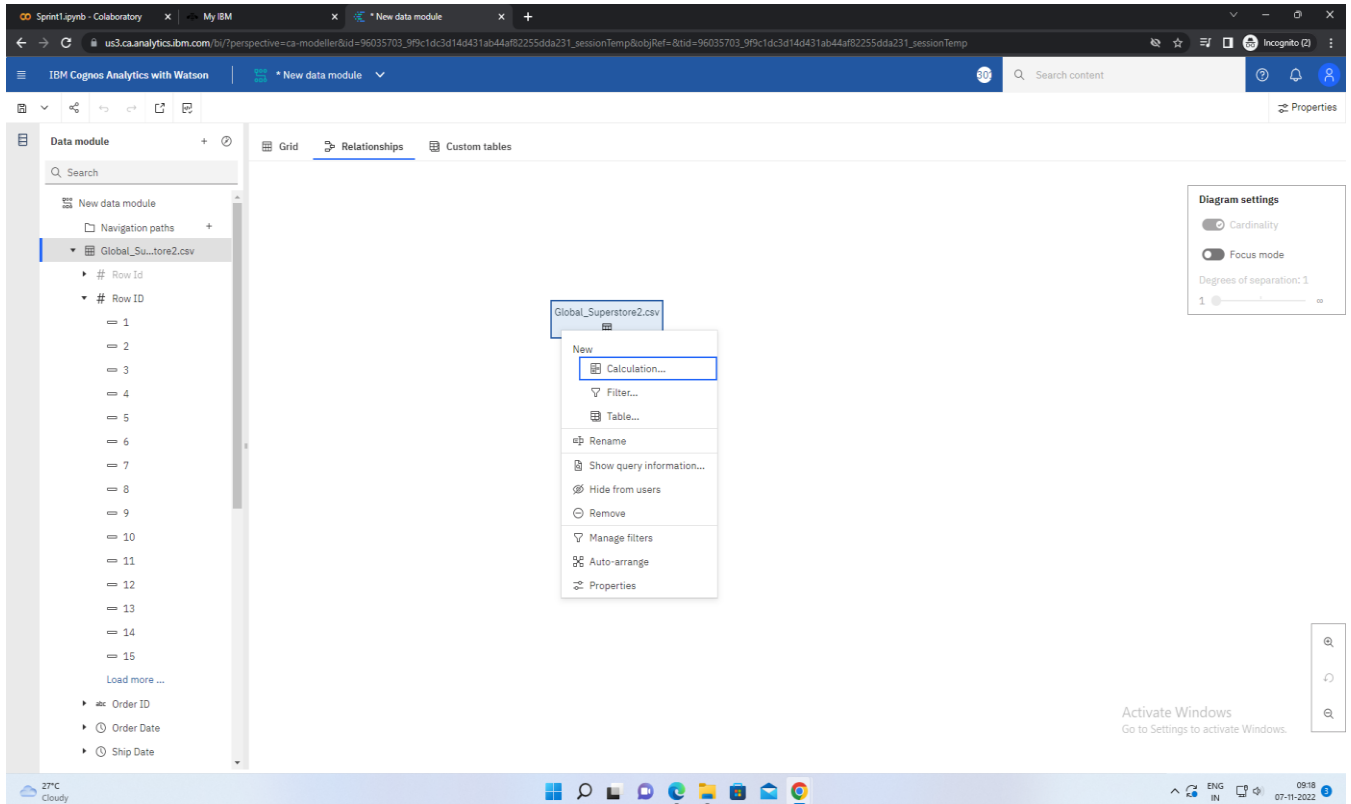

Sort the data to meet your needs and eliminate any extraneous information.

The screenshot shows the IBM Cognos Analytics interface. On the left, the 'Data module' sidebar lists various fields: Order ID, Order Date, Ship Date, Ship Mode, Customer ID, Customer Name, Segment, City, State, Country, Postal Code, Market, Region, Product ID, Category, Sub-Category, Product Name, Sales, Quantity, Discount, Profit, Shipping Cost, and Order Priority. The main area displays a table with columns: category, Sub-Category, Product, Quantity, Discount, Profit, Shipping Cost, and Order Priority. A context menu is open over the 'Product' column, showing options: Filter..., Create data group..., Create navigation path..., Split..., Hide from users, Remove, Format data..., Clean..., Sort descending, Sort ascending, and Properties. The table data includes rows for various products like Plantronics Over-the-ear Headset, Novime Leather Chair, Nokia Smart Phone, Motorola Cordless Phone, Sharp High-Speed Copier, Samsung Smart Phone, Novime Leather Chair, Chromcraft Conference Table, Fellowes PB500 Electric Punch, Chromcraft Bull-Nose Wood Oval Conference Table, Martin Yale Chaddless Opener, Bevis Conference Table, Cisco Smart Phone, Harbour Creations Executive Leather Armchair, and KitchenAid Microwave.

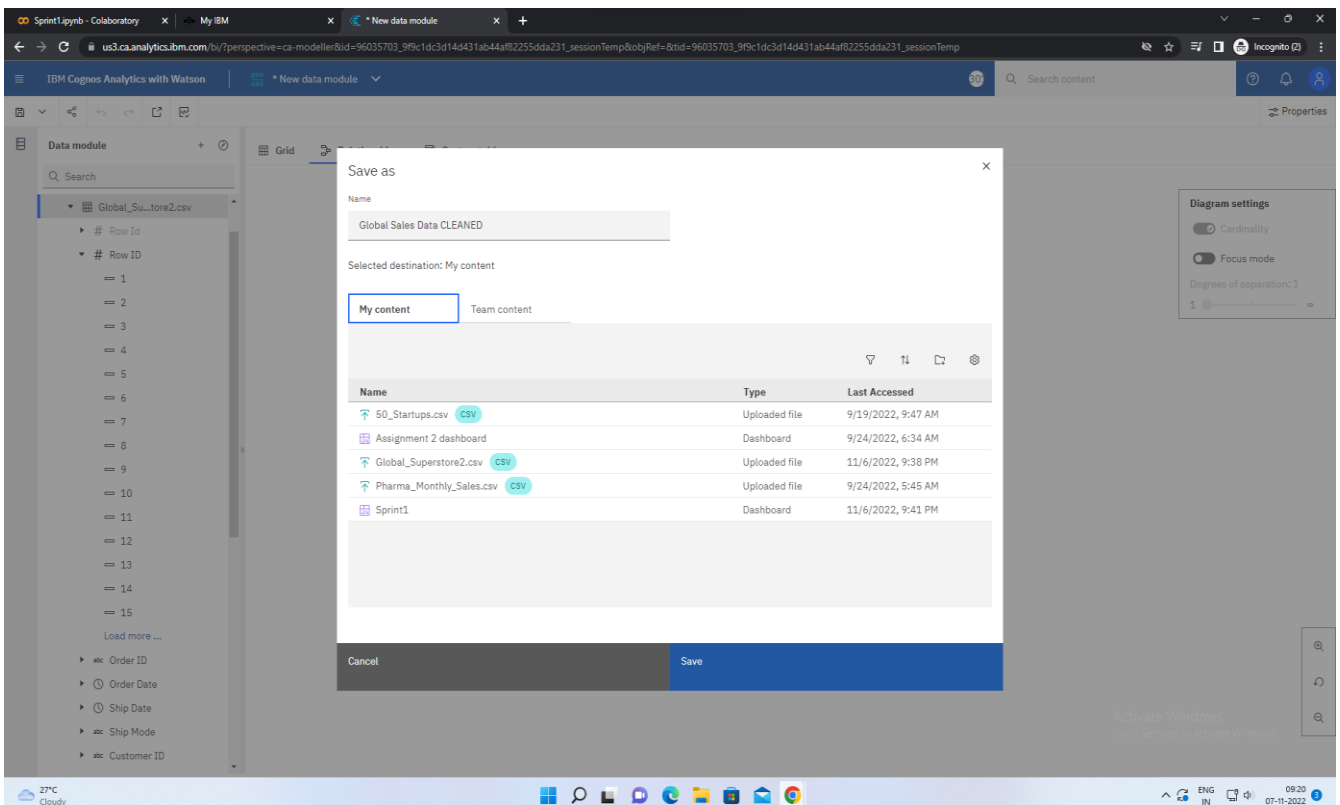

## Choose the required fields to be filtered

The screenshot shows the IBM Cognos Analytics interface with a 'Filter - Region' dialog box open. The dialog box has a search bar and a list of regions with checkboxes: Africa, Canada (checked), Caribbean, Central, Central Asia, EMEA, East, and North. Below the list, there are 'Clear all' and 'Invert' buttons. At the bottom, there are 'Cancel' and 'OK' buttons. The background table is dimmed, showing the same columns as the first screenshot, but with a different set of data rows.

## 7. Creating Relationships among the data

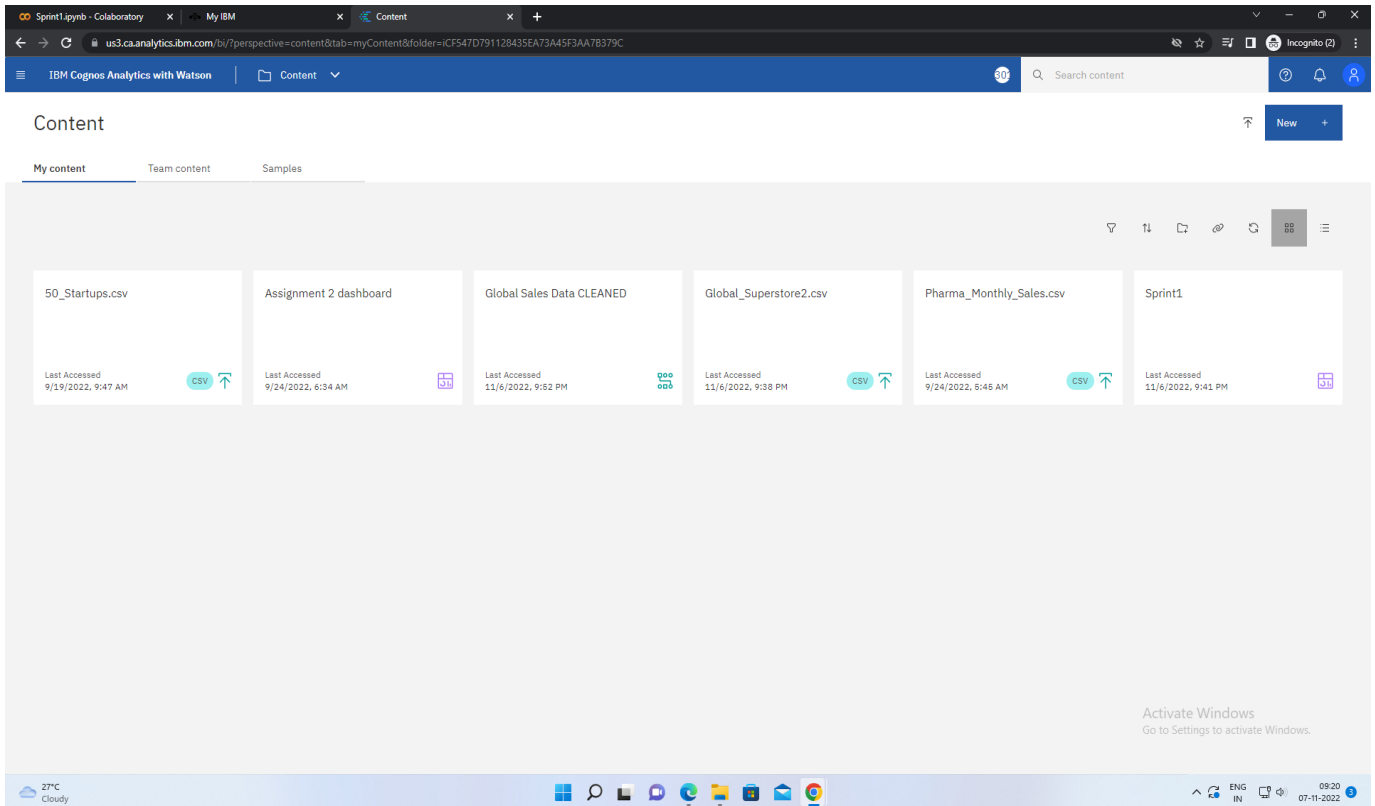

## 8. Save the dataset after preparing the data

## 9. Open “Content” from the menu bar

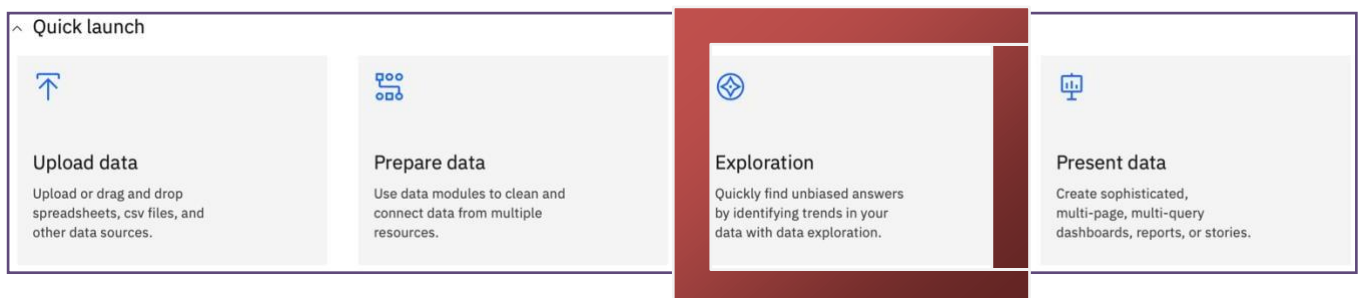

You can access the uploaded and stored data here.

## DATA EXPLORATION PHASE

### 10. Data Exploration

To analyze the information, select the Exploration option.

## 11. Select the Data to be explored

To begin browsing the cleaned and prepared data, choose "My Content" from the menu.

The screenshot shows the IBM Cognos Analytics web application. A modal dialog titled "Add a data source to explore" is open, displaying a table of available data sources under the "My content" tab. The table lists several CSV files and a data module, all of which have been cleaned.

Name	Type	Last Accessed
50_Startups.csv	Uploaded file	9/19/2022, 9:47 AM
Global Sales Data CLEANED	Data module	11/6/2022, 9:52 PM
Global_Superstore2.csv	Uploaded file	11/6/2022, 9:38 PM
Pharma_Monthly_Sales.csv	Uploaded file	9/24/2022, 5:45 AM

The background interface includes a sidebar with "Quick launch" options like "Upload data" and "Get started", and a main area with "Present data" and "Learning resources" sections.

## 12. Start exploring the data and create relationships among the data.

The screenshot displays the IBM Cognos Analytics "New exploration" view. A relationship diagram is shown for the "Global Sales Data CLEANED" dataset, with "Quantity" as the central node. It is connected to several other nodes: "Discount", "Market", "Profit", "Sales", "Country", "Shipping Cost", and "Region". The diagram is titled "Explore data relationships" and includes a search bar for "Quantity". On the right, a "Select a visualization" panel shows a "Profit" chart with a value of 1.47M. The interface also includes a sidebar with "Cards" and a bottom status bar with system information.

## 13. Save the exploration

The screenshot shows the IBM Cognos Analytics interface with a 'Save as' dialog box open. The dialog box has a 'Name' field containing 'Sprint1 exploration' and a 'Selected destination' of 'My content'. Below this is a table listing various data sources and their types.

Name	Type	Last Accessed
50_Startups.csv	Uploaded file	9/19/2022, 9:47 AM
Assignment 2 dashboard	Dashboard	9/24/2022, 6:34 AM
Global Sales Data CLEANED	Data module	11/6/2022, 9:52 PM
Global_Superstore2.csv	Uploaded file	11/6/2022, 9:38 PM
Pharma_Monthly_Sales.csv	Uploaded file	9/24/2022, 5:45 AM
Sprint1	Dashboard	11/6/2022, 9:41 PM

The background interface shows a 'Cards' section on the left with a 'Data relationships' diagram. The main area displays 'Explore data' with a search bar and a 'Relationship diagram' at the bottom. The right sidebar shows a 'Select a visualization' section with a 'Profit' card displaying '1.47M Profit' and a 'Profit and Sales for Country regions' card with a world map.
